## SUMMARY

Very organized and hard working

I am looking for a responsible position to gain some work experience.

I started learning programming with C# Winforms, and I have a program similar to Word, a program to print customer invoices in the store, and Todolist.

I learned developed mobile apps using Flutter.

I have minimal experience with NodeJs, ExpressJs and MongoDB.

Recently, I have solid experience in all web languages and use Laravel framework for backend and React.Js for frontend.
